KENTUCKY MERCHANTS ENDORSE SEBASTIAN

Notice to Candidates

The last issue of the Courier before the primary will be dated Thursday, August 3. In order to make the paper of added value to our readers, to insure all of them to have it at least two or three days before voting time, this paper will be printed on August 1 and mailed on August 2. This is one day earlier than our regular schedule. All advertising or reading matter intended for publication in this issue must be in our hands not later than 12 o'clock noon Tuesday, August 1.

If you have a special message here is your opportunity to put it across. COURIER PUB. CO.

NEIGHBORLINESS

To the Voters of the 37th Judicial District, and especially Morgan county:

When in need you always call on your neighbor for help because your neighbor always shares your sorrow or your joys with you. Why leave your county to find men to vote for when you have the material in your own county who is your neighbor and your friend?

Morgan county has not had a Circuit Judge to serve you for many, many years. Therefore, you should vote for me for the Democratic nomination for Circuit Judge through county pride, if nothing else, and we will have another Circuit Judge that was born and raised in Morgan county.

As this campaign progresses I want to plead with you for support on my record as a Citizen, Soldier, and an Officer. My record in life is an open book, and my greatest ambition in life has always been for the betterment of my County, State, and Nation and I know that you stand for the same ideals and that you will give me your support in this Election, and we will win a wonderful victory at the polls. I am,

Very truly yours,
LYNN B. WELLS

VETERAN SPEAKS

To the World War and All Other Veterans:

As you all know I am a World War veteran and was wounded in action, and that I have the interest of all veterans at heart, and I am especially interested in Lynn B. Wells, of West Liberty, Ky., who is a candidate for Circuit Judge. I know that you are all behind him practically 100 per cent. However, I want to say a word in his behalf in the closing days of this campaign.

There is not a voting precinct in Morgan county but that has from 15 to 30 veterans in it and if you will all stand together with your families you can prevent any other candidate or deputy from trading on Lynn B. Wells. Therefore, let us stand loyally together in this fight and we will win the Democratic Nomination for Lynn B. Wells, and give old Morgan another judge instead of going to another county for one. I am,

Sincerely your comrade,
JOHN H. HELTON

Chosen by Merchants to Fight the Retail Sales Tax

Walter H. Sebastian FOR State Senator

To the voters of the 34th Senatorial District composed of the counties of Magoffin, Morgan, Wolfe, Breathitt, and Lee:

My particular reason for addressing you at this time is because of the broadcasting of literature by my opponent from Breathitt county attempting to mislead the voters by circulating untruths and statements without foundation. However, in most all campaigns we find someone who seeks the unfair method of attempting to fool the public while defeat stares them in the face. You will notice that such articles are signed "Campaign Committee for Ervine Turner" and not the signature of Mr. Turner himself. In this important campaign, I have signed all statements myself and have entirely too much respect for this high office to seek the "fly by night" or the "undercover" method of presenting facts to the public. It is purely a case of a drowning man grabbing for a straw. My record is an open book and the public will not be misled by such propaganda.

Protect the Taxpayers

Mr. Turner has spread throughout the district that he wants to "protect the taxpayers" and that he believes in economical government. By direct reference, I state that his wife has been drawing a salary of \$200.00 a month, and that while on the payroll, she spent last year and up to this good time this year going to school at the Morehead Normal School. Mr. Turner is now an appointee of Governor Laffoon and is supposed to be liquidating a bank. Mr. Depositor, do you realize that your hard earned cash is being spent to pay the campaign expenses of Mr. Turner? May I ask Mr. Turner where one dollar in service is being rendered for the \$400.00 a month that he and his wife are receiving from the taxpayers of Breathitt county and the depositors of the Hargis Bank and Trust Company? These facts are not new to you who are paying the bill, but I challenge his sincerity of purpose when he attempts to mislead the voters of this district.

The Retail Sales Tax

Friends, I deeply appreciate the action of the Kentucky Merchants Association in endorsing me as their choice to lead the fight against the Retail Sales Tax. The merchants organized about fifteen months ago with only one purpose in mind. They are fighting to keep from the doors of every man a sales tax on the very necessities of life. They have looked over the field of Democratic candidates and have chosen me to lead their fight. They were in Frankfort during the last session of the Legislature. They saw me, they knew me. They had confidence in my integrity and sincerity of purpose. I appreciate that confidence and I pledge to you and to the Merchants' Association that your confidence will never be betrayed and that I shall fight for you to the last ditch. The Kentucky Retail Merchants Association is not a political organization, but is composed of men from all political parties, organized solely for the purpose of keeping the Sales Tax burden from the shoulders of those who are least able to pay. If you are opposed to a sales tax, join with me and I will take the issue to the Senate and will be found at my post of duty, battling for the people of my district.

To the Teachers

At the last session of the Legislature, I helped to pass a resolution authorizing the appointment of an educational commission to make a complete survey of our educational system in Kentucky. They are doing good work and I hope to be in the Senate and help carry out the program that we started in the Legislature last year. I voted for and helped to pass a resolution to give the teachers their \$700,000.00 that was due them. In fact, I supported all legislation in your behalf and I shall continue to fight and shall keep the faith until education becomes a matter of state affair and all teachers and students

RUBY AND RELIEF FUNDS

Governor Laffoon finds himself in a very trying position on account of the ultimatum of the national government that Kentucky must contribute a share of the funds if further relief is to be obtained for this State. No one knows better than the Governor how difficult it will be for Kentucky to raise four million dollars. Unless the R. F. C. will loan the money to the Commonwealth it is doubtful if the money can be raised.

It is not so much the fault of Governor Laffoon that the State is in its present condition as it is the fault of the rotten system of nominating and electing State officials. The bipartisan group that has both the Democratic and Republican parties in this State under such control that no man who does not wear the collar of these men can be elected. Revolutions in one of the parties may nominate a man opposed to the cabal but he cannot be elected. That is he has never been elected and it will require a political revolution to dislodge the grafters from control.

It is true that little benefit is being derived from the work the relief force is doing, but it gives employment to many who would otherwise suffer. If conditions in the State were such that intelligent direction could be given to the work that is being done by relief workers it would be a blessing to the country, but practically all the work is wasted because it is not intelligently directed nor properly planned.

The question that Governor Laffoon faces is whether to call a special session of the legislature and try to raise the four million and thus increase the burden upon the taxpayers, or let the work be abandoned and deprive thousands of workers who have no other employment from working to support themselves.

He needs sympathy rather than criticism.—Estil Herald.

Notice Ex-service Men

A special meeting of Holly Coffee Co., No. 48 will be held Saturday, July 29th, at 1:30 p. m. Special string music has been arranged for from 12:30 to 1:30 p. m.

The business session will start promptly at 1:30 and all ex-service men are invited and urged to be present.

BAPTIST CHURCH

Prayer meeting and song service Thursday night at 7:30. Sunday school every Sunday morning at 10 o'clock.

Everybody is invited to attend these services, "Not forsaking the assembling of ourselves together."

are given equal opportunity. It is imperative that the next legislature lengthen the term of school and the increase of our teachers salaries. This can be done by making our school tax a state tax, making the tax uniform in all the counties. This will be a relief to less fortunate counties of the state. The educational survey is bringing results and I stand solidly behind their report and recommendations that they have thus far made. I am interested in you. My words are plain and simple but you can count on my loyalty in your behalf. I believe in having well qualified County School Superintendents but I believe they should be elected by direct vote of the people. Mr. Turner has been playing both sides of this question and he has not yet taken a definite stand. No man in Kentucky is more interested in education than I. Frankness is always the best policy and you may rely on my pledge to fight your battles for you.

It will be impossible for me to see all the voters of the district. The issues are clearly defined and I ask that you go to the polls on August 5th and give me your united support.

To the voters of Morgan county, let me ask for your united support as your native son. You have known me from the days of my childhood, and I know you will not be misled by untruths and misleading statements that are being circulated by my opponents who are seeking your votes and do not have your interests at heart.

Thanking you, I am

Respectfully,

(Adv.)

Walter H. Sebastian

CANDIDATE TO BE END

To the Voters of Morgan County: It has come to my knowledge that a rumor is being circulated that I had quit the race for jailer. How or by whom this report was started I do not know. My friends have been very loyal and my prospects of nomination are very satisfactory. I thank my friends and wish to assure them that I am a candidate to the end of the race.

D. BOON LACY

DON'T BE FOOLED

To the Voters of Morgan County: As you know I have made a clean race for jailer. I thank you all for the nice way you have received my claims and feel that we have won the race.

Lately the rumor has been spread that I had withdrawn from the race. There is absolutely no foundation for this report. Pay no attention to it and find my name on your ballot when you go into the election booth on August 5.

J. MACE CANTRELL

A REAL CALLER!

In recent years at county and district fairs "A Hog Calling Contest" is generally a leading event. It is said that certain artists at this event have become so proficient that they can send forth such enticing notes that will startle the pork population for a radius of several miles and bring them to the feet of the caller with the expectation of getting their feet into a trough.

Two years ago the voters of the state of Kentucky elected a state legislature, members of the lower house to serve for two years and senators to serve for four years. The people who elected these men had a right to expect that these legislators intended to serve them in this capacity for the term for which they had been elected.

In connection with the insistent clamor for a special legislative session it now develops that between one third and one half of the men elected and sworn in as legislators have taken other positions of responsibility—many of them positions created by legislation.

A man who has the sense of honor which is the first requisite of a public servant will not accept a position which he does not intend faithfully to fill. Having accepted one position he would no more solicit nor accept another one than he would take a chicken from his neighbor's coop at night.

If Governor Laffoon can call a morally legal session of the supposedly existing state legislature he will certainly have won the blue ribbon as the champion "hog caller" of the century.

PROVISION

Shreveport, La.—A man and his two little girls, strangers in a strange city, were walking past a restaurant, when one of the little girls asked her father where they were going to eat. They had had nothing to eat all that day, and very little the day before.

In his native tongue, the father replied, "God will provide."

The remark was overheard by the owner of the restaurant, and the three were invited to enjoy a wholesome meal. Upon learning that the man was a stranger without funds, and that the rest of his family were at a hotel, the new found friend took food to them. He afterwards paid their rent and saw that they were provided for, for several days.

Other friends were told, and in a very short time the stranger was established in the window of a downtown vacant store, making candy in borrowed kettles and with ingredients bought on credit. The original investment paid, the store spread into a soft drink stand, taking up the entire building, the sign "No Beer Sold Here" being the most conspicuous thing about it. Two months have passed and the business is valued at \$10,000.

Surely it may be said that God will provide us not only with our daily needs, but with many kind friends, even in a seemingly strange country.—Christian Science Monitor.

Morgan County Man Chosen to Lead Fight Against Sales Tax

Following a meeting of the Retail Merchants' Association at Frankfort on Monday, July 17th, the Legislative Committee of the association endorsed Walter H. Sebastian to lead the fight against the proposed sales tax that is expected to come before the next meeting of the General Assembly.

The letter to the Courier is as follows:

259 Starks Bldg., Louisville, Ky.
Mr. F. S. Brong, Editor
Licking Valley Courier
West Liberty, Kentucky
Dear Mr. Brong:

It is the opinion of the Legislative Committee of the Kentucky Retail Merchants' Association that the merchants in the 34th Senatorial District should get solidly behind Walter Sebastian in his race for the Senate, as he is pledged not only to vote against the sales tax but to organize the Senate against such a measure.

There are other candidates in this district who are equally opposed to the sales tax, and the Association regrets that it becomes necessary to support one of these friends against the other; but if our vote is divided, the principal opponent will unquestionably be nominated; and it is for that reason that we advise getting behind Mr. Sebastian.

Yours very truly,
W. REED EMBRY, President Kentucky Merchants' Association.

The above letter is on file at the office of the Licking Valley Courier. [Advertisement]

BEWARE TYPHOID

There is an outbreak at this time of typhoid fever. At this inspection of Morgan county, owing to long dry spells, the wells are low and the rains that now follow, will fill up the wells with surface water, causing contamination of typhoid germs. Everybody should treat their wells with chloride of lime at once and all persons, who have not been inoculated within the past two years, should be inoculated immediately, themselves and their families, as the cases I have seen have been malignant type of typhoid fever.

DR. W. H. WHEELER, Director of Morgan County Health Department.

Fourth Quarterly Conference

Dr. V. L. Moore, presiding elder of the Methodist church, will be in West Liberty Sunday evening, August 6, to preach and to hold the last quarterly conference of the year. The annual conference will convene August 30 at Wilmore, Ky. Dr. Moore states that the work of the district is coming along fine, and that one of the hardest charges in the conference has paid all claims out in full. That encourages us to do our best. I. J. SCUDDER, pastor

People's Column

YOUR SINS

Dear People's Column: I have just been thinking if the church people would retain their spiritual piety and be as spiritual on the 5th of August when they are in the election booth casting their vote with no one to behold their acts but the all seeing eye of God; and if they could then shout and praise Him as they do when at church Saturday night and Sunday, we would be sure of a good set of county officers for the next four years.

We have some of the best material that ever asked for office in Morgan county. After it is all over you cannot say that we did not have a chance to elect good men. Now let us show our religion. Let us vote as we pray and shout. Let us not go into the booth and shut our eyes and hold our nose, but go with head up asking God to direct our hand and stencil, and the work is done.

If you fail in your civic duty be sure your sin will find you out. You will reap what you have sown.

Doctor—Never mind. Your faith has nothing to do with this case. You know, a mule has no faith in a veterinary surgeon, and yet the surgeon cures him just the same.—Pathfinder.

Henry Ford

IN ANSWER TO A LADY'S LETTER

A lady writes to say that she does not understand why an 8-cylinder car does not cost more to run than a car with fewer cylinders. She refers to my statement that our Ford V-8 develops more power on a gallon of gas than any car we have made.

The use of 8-cylinders does not mean the addition of two or four extra fuel consumers. It is not, for example, a 4-cylinder engine multiplied by two. Our 8-cylinder engine takes the fuel supply of an ordinary 4-cylinder engine and divides it eight ways. And why?

By reducing four larger explosions into eight smaller ones, we get engine smoothness and quietness. Eight-cylinders indicate the way the gas is used, not the amount. It is just the difference between going upstairs in four long jumps or in eight ordinary steps.

Two things use up gas—bad engine design and useless car weight. Besides having an engine that gets a high percentage of power out of the fuel, the Ford V-8 has a light, strong body and chassis so that no power is wasted in moving excess weight.

The only extravagance about the new Ford V-8 engine is in the building of it. The extravagance is ours—the economy is yours.

The whole question of car economy needs clearing up. An economical car gives economy all round. Price, operation, upkeep, all play their part. If what you save on gas you lose elsewhere, that is not economy.

As to upkeep, our dealers say that in recent years the improved quality of Ford cars has cut down their repair business 50 per cent.

As to price with quality,—judge for yourself.

As to economy, here is the record of a stock car three weeks out of shop in Oklahoma:

On a run of 10,054 miles at the rate of 1,000 miles a day—the Ford V-8 gave 18.8 miles per gallon of gas. Not a drop of water was added to the radiator. The oil was changed once in 1,000 miles.

That should answer a lot of questions.

Ervin Turner For State Senator

Ervin Turner, Jackson, Kentucky, Democratic candidate for State Senator, thirty-fourth district, composed of Magoffin, Morgan, Wolfe, Lee, and Breathitt counties, to be voted for in the primary, Saturday, August 5, 1933.

Mr. Turner's Views On Public Questions

1. He favors lessening the burden of taxes on real estate and farm lands.
2. He favors equalizing educational opportunities as to the length of the school term, teachers' salaries, and equipment in the counties of his district with other counties of the state that are more fortunate in wealth.
3. He favors free textbooks for public schools.
4. He favors a well planned state road program, efficiently and economically administered. He will use his efforts to have graded and drained all primary projects in his district and to have hard surfaced all highways, connecting county seats.
5. He favors reduction of automobile license.
6. He opposes a sales tax.
7. He is a friend of the war veterans and will work to their interest.
8. He favors rigid economy in the administration of state, county, and city governments.

W. H. Sebastian's Legislative Record

Mr. Turner's opponent, W. H. Sebastian, from Morgan county, served as a member of the Kentucky House of Representatives in 1932. Here is the way Mr. Sebastian voted on bills affecting the taxpayers and citizens of his district, namely:

1. He voted for a sales tax on the very necessities of life—goods, wares, and merchandise of every description.
2. He voted for an extra tax of \$3.50 on marriage licenses.
3. He voted for extra tax on deeds, mortgages, and conveyances of real estate.
4. He voted to fund and bond the state's indebtedness of millions of dollars to be paid by an extra tax over a period of twenty years.

Questions Asked W. H. Sebastian by the Voters

1. Tell us of a single law that you sponsored and voted for to our interest in the 1932 Legislature.
2. Tell us how you voted on the sales tax to increase the cost of our meat and bread, sugar, shoes, etc.
3. Explain why you changed your stand on the sales tax three times within 60 days.
4. Why did you vote an extra tax of \$3.50 on marriage licenses against the poor boys and girls of this district and Kentucky?
5. Explain to us your vote putting a tax on our deeds, mortgages and conveyances, etc.
6. Explain to us why you voted to place an extra tax on the people of this district and state for a period of 20 years to pay the state's old debt of many millions of dollars. How do you stand on this question now?
7. Tell how your proposed sinking fund that you mentioned in the Licking Valley Courier, June 29, 1933, issue, to increase teachers' salaries will not burden us with higher taxes.
8. How can you have a sinking fund without submitting it to a vote of the people?
9. Why did you not discuss and cooperate with the state department of education in making school laws?
10. What hope do you have in helping schools and teachers of this district by lambasting the state superintendent, who is leading the fight for rural schools?
11. Tell us what you hope to do for the building of roads with your stand and sarcastic attitude directed at the present state administration.
12. How do you expect to help us without the aid and cooperation of the present administration?
13. How can you help us in jobs and appointments with more than a dozen of your immediate family on the public payroll?
14. Explain why you gave all your time and influence in the last Legislature to creating a judicial district so that your father-in-law may become Circuit Judge.
15. Explain why you ridiculed and lambasted a distinguished citizen, and ex-Governor of Kentucky, from the house floor merely because of the difference in opinion on this judicial bill.

Endorsed by Teachers

Breathitt county teachers assembled in session endorsed Mr. Turner 100 percent.
Wolfe county teachers assembled in session endorsed Mr. Turner 100 percent, with two dissenting votes.
Magoffin and Lee counties endorsed Mr. Turner by the teachers' signatures practically 100 percent.
Morgan county poll of the teachers shows approximately 75 percent for Mr. Turner.

Political Endorsements

Mr. Turner is endorsed by the Democratic organizations of Wolfe, Breathitt, and Lee counties, and has substantial support in Magoffin and Morgan counties.

Endorsed by Merchants

Ervin Turner, a candidate for State Senator, from Breathitt county, is unalterably opposed to the sales tax; therefore we, the undersigned merchants of this senatorial district, endorse his candidacy and urge our customers and friends to vote and use their influence to assure his nomination.

STEEL ALONE IS NOT ENOUGH!

—neither strong enough, nor
safe enough, nor quiet enough
for the body of a quality car like

CHEVROLET

CHEVROLET Why is it that every 12-cylinder and 16-cylinder car in America has bodies of steel reinforced by hardwood? Why is it that every make of car selling for over \$4000 uses bodies of exactly the same type? Why? For the same reason that Chevrolet uses it exclusively. Because every test and every experiment has definitely proved: **STEEL ALONE IS NOT ENOUGH!**

The trouble with steel alone is that it stands just so much shock and punishment! Steel alone is also inclined to rumble and rattle. BUT—when you put the two together—a heavy, staunch steel body over tough, solid hardwood—then the hardwood reinforces the steel—and vice versa! And the result: the strongest, safest type of body, such as Fisher builds for Chevrolet.
